| Pointing and Lighting Requirements: **CC Paragraphs 1, 3, 11, 21 | |

special Conditions:

This registration is effective upon completion of the described antenna structure and notification to the Commission. YOU MUST NOTIFY THE COMMISSION WITHIN 24 HOURS OF COMPLETION OF CONSTRUCTION OR CANCELLATION OF YOUR PROJECT. Use FCC Form 854. To file electronically, connect to the antenna structure registration system by pointing your web browser to http://www.fcc.gov/wtb/antenna. Electronic filing is recommended. You may also file manually by submitting a paper copy of FCC form 854. Use purpose code "NT" for notification of completion of construction; use purpose code "CA" to cancel your registration.

The Antenna Structure Registration is not an authorization to construct radio facilities or transmit radio signals. It is necessary that all radio equipment on this structure be covered by a valid FCC license of construction permit.

You must immediately provide a copy of this Registration to all tenant Roensees and permittees atted on the structure described on this Registration (although not required, you may want to use Cedified Mail to obtain proof of receipt), and display your Registration Number at the site. See reverse for important information about the Commission's Antenna Structure Registration rules.
