Saint Paul, MN 55101

In re: WGGL-FM, Houghton, MN
Minnesota Public Radio, Inc.
STA

Dear Licensee:

This refers to the letter of your attorney, dated March 5, 1997, requesting special temporary authority (STA) to operate at a reduced effective radiated power (ERP). Station WGGL-FM is presently authorized by license BLH-937 to operate with an ERP of 100 kilowatts at an antenna height above average terrain (HAAT) of 262 meters. This request is made because of structural damage to the station's antenna.

In view of the above, SPECIAL TEMPORARY AUTHORITY IS HEREBY GRANTED to operate at reduced effective radiated power as needed. This authority expires August 2, 1997. Please notify the Audio Services Division by letter when full power operations resume.

Sincerely,

James R. Burtle
Supervisory Electronics Engineer
Audio Services Division
